The format includes synopses of the legislation pending in the House of Representatives and the Senate and indices by statute reference, subject matter, and sponsor.

The Digest is a weekly publication during the time the General Assembly is in Session. It is available by subscription through the Legislative Reference Bureau, for $55.00 per calendar year.

PUBLIC ACT 85-0282  Effective date 09-05-87

SB-1013  SAVICKAS.
(Ch. 111 1/2, pars. 1039 and 1039.2)

Amends the Environmental Protection Act to provide that a permit for development or construction of a new regional pollution control facility may be issued but will not be effective (now, may not be granted), unless the applicant submits proof of certain facts to the Environmental Protection Agency. Provides that the Agency’s issuance of such a permit shall be deemed presumptive proof that the permit applicant’s proposed facility is so designed, located and proposed to be operated that the public health, safety and welfare will be protected. Effective immediately.

SENATE AMENDMENT NO. 1.

Deletes reference to: Ch. 111 1/2, par. 1039.2

Prohibits commencement of site preparation for a regional pollution control facility before local government approval. Removes provision making issuance of a permit proof of compliance with health and safety standards.

FISCAL NOTE (Prepared by EPA)
It is impossible to exactly quantify the cost to the State of administering Senate Bill 1013 since the cost will depend on the number of permit applications submitted,
a factor over which the Agency has no control. However, it is estimated that cost will be approximately $180,000 per year. Funding for this work is not contained in the FY 88 budget.

HOUSE AMENDMENT NO. 1.

Adds reference to: (Ch. 111 1/2, par. 1039.3)

Provides that the provisions of this Section apply to any application for a permit under the Solid Waste Rules of the Board's Rules and Regulations to develop a new regional pollution control facility for the disposal of hazardous, special or municipal waste (now, hazardous waste only) and to any application to modify the development of an existing site or facility which would allow the disposal of hazardous, special or municipal waste (now, hazardous waste only) for the first time.

HOUSE AMENDMENT NO. 3.

Excludes counties of less than 3,000,000.

HOUSE AMENDMENT NO. 4.

Deletes existing provisions. Allows the Agency to issue a draft permit or notice of intent to deny a permit to an applicant intending to construct a regional sanitary landfill, before local siting approval is granted, but does not allow final action until local siting approval is obtained.

HOUSE AMENDMENT NO. 6.

Deletes reference to: Ch. 111 1/2, pars. 1039 and 1039.3

Adds reference to: Ch. 111 1/2, par. 1039.2

Authorizes an applicant to file no more than one amended application for a New Regional Pollution Control facility upon payment of additional fees pursuant to subsection (K) of Section 39.2 of this Act at any time prior to completion by the applicant of the presentation of the applicant's factual evidence and an opportunity for cross examination by the county, governmental body and any intervenors.

HOUSE AMENDMENT NO. 7.

A plaintiff whose fault does not exceed the aggregate fault of all other persons will not be barred from recovery, but his damages will be reduced according to his proportionate fault. Abolishes the doctrine of joint and several liability in actions brought on account of death, bodily injury to person or physical damage to property in which recovery is predicated on fault and limits a defendant's responsibility to pay damages according to his proportionate fault in causing such damages. SB-1182 JOYCE, JEROME.

(111 1/2, pars. 241-2, 241-13 and 241-14; Ch. 127, par. 141.136)

Amends the Low-Level Radioactive Waste Management Act to delete the special category of fees for nuclear power reactors. Provides for retirement of development bonds and administration of the Act to be financed through separate special funds.

FISCAL NOTE (Prepared by Dept. Nuclear Safety)

Use of revenue bonds would not have a significant fiscal impact on the State as they would be retired by amounts assessed LLW generators. Eliminating the special category of fees for nuclear power plants would represent a revenue loss of more than $500,000 per year. Therefore, the Dept. would be unable to fund the LLW program at existing levels. Additional State resources may be required if a LLW disposal facility is not developed by 1993.
