*State Debt Impact Note Act may be applicable.
Amends the Environmental Protection Act to provide that a permit for development or construction of a new regional pollution control facility may be issued but will not be effective (now, may not be granted), unless the applicant submits proof of certain facts to the Environmental Protection Agency. Provides that the Agency's issuance of such a permit shall be deemed presumptive proof that the permit applicant's proposed facility is so designed, located and proposed to be operated that the public health, safety and welfare will be protected. Effective immediately.

SENATE AMENDMENT NO. 1.
Deletes reference to: Ch. 111 1/2, par. 1039.2
Prohibits commencement of site preparation for a regional pollution control facility before local government approval. Removes provision making issuance of a permit proof of compliance with health and safety standards.

FISCAL NOTE (Prepared by EPA)
It is impossible to exactly quantify the cost to the State of administering Senate Bill 1013 since the cost will depend on the number of permit applications submitted, a factor over which the Agency has no control. However, it is estimated that cost will be approximately $180,000 per year. Funding for this work is not contained in the FY 88 budget.

HOUSE AMENDMENT NO. 1.

HOUSE AMENDMENT NO. 3.
Excludes counties of less than 3,000,000.

HOUSE AMENDMENT NO. 4.
Deletes existing provisions. Allows the Agency to issue a draft permit or notice of intent to deny a permit to an applicant intending to construct a regional sanitary landfill, before local siting approval is granted, but does not allow final action until local siting approval is obtained.

Adds reference to: Ch. 111 1/2, par. 1039.2

Authorizes an applicant to file no more than one amended application for a New Regional Pollution Control facility upon payment of additional fees pursuant to subsection (K) of Section 39.2 of this Act at any time prior to completion by the applicant of the presentation of the applicant's factual evidence and an opportunity for cross examination by the county, governmental body and any intervenors.

Amends the Low-Level Radioactive Waste Management Act to delete the special category of fees for nuclear power reactors. Provides for retirement of development bonds and administration of the Act to be financed through separate special funds.

FISCAL NOTE (Prepared by Dept. Nuclear Safety)

Use of revenue bonds would not have a significant fiscal impact on the State as they would be retired by amounts assessed LLW generators. Eliminating the special category of fees for nuclear power plants would represent a revenue loss of more than $500,000 per year. Therefore, the Dept. would be unable to fund the LLW program at existing levels. Additional State resources may be required if a LLW disposal facility is not developed by 1993.

GOVERNOR MESSAGE

Adds reference to: Ch. 122, paras. 34-18b and 34A-606; new par. 34-2.4b; and rep. pars. 34-18c, 34-85.1 and 34-85.2

Phases in over a 5 year period the prescribed supplemental, nonsupplantive effect of State aid provided (under the new distribution formula) by application of the Chapter 1 weighting factor, makes the new distribution formula effective only if and to the extent that categorial, hold harmless funding is appropriated by the State for attendance centers which receive less of that type of State aid under the new formula, and makes the new distribution formula inapplicable with respect to the portion of that type of State aid which is earmarked by the school district for desegregation and related transportation programs. Provides for termination by the principal of any additional remediation period provided for unsatisfactory tenured teachers after their initial 45 days of school remediation. Expresses Legislative intent to neither alter nor amend the desegregation obligations of the Board. Expands the definition of a “multi-area school” to include attendance centers which first meet the requisite criteria after the amendatory Act’s effective date, revises the definition of “subdistrict” to include existing high school administrative subdistricts, deletes provisions relative to the elimination of high school administrative subdistricts and the setting of new high school attendance area boundaries, adds provisions authorizing the establishment of multi-area attendance centers or other student assignment systems, and provides for development and implementation on a phased in basis of an open enrollment plan on a space available basis in the district’s schools. Revises the powers and duties of local school councils and principals with respect to all funds allocated and distributed to attendance centers, requires the Board to annually distribute $50 per student to each attendance center for a lo-
SB-1839—Cont.
cal school improvement fund, adds the special needs of a school to the factors the 
Board may consider in exercising its lump sum budget allocation powers, authorizes 
the Board to annually reserve 1% of its budget for distribution to attendance centers 
on a prioritized special needs program basis, revises provisions relating to the allo-
cation and use of State Title funds, and eliminates provisions which required the re-
turn or crediting of unexpended funds allocated or distributed to an attendance 
center to that attendance center, instead making such unexpended funds available 
to the Board for its budget for the ensuing fiscal year. Revises the new provers and 
duties of the School Finance Authority with repect to the Board’s financial affairs to 
provide for the exercise of those powers in the context of the budget review and ap-
proval process rather than in the actual expenditure process. Revises the provisions 
establishing limitations on noninstructional costs of the Board. Eliminates provi-
sions relating to supernumerary teachers. Changes the Teachers Advisory Commit-
tee to a Professional Personnel Advisory Committee. Eliminates cumulative voting 
for local school council members, provides for election of the community resident

councils, and revises and adds provisions relating to disclosure of economic interests 
and conflicts of interest applicable to nominees for election to and members of Local 
School Councils. Changes provisions governing expense reimbursement of local 
school council and subdistrict council members, and revises the affirmative vote re-
quirement for action by Local School and subdistrict councils. Repeals additional

ed the existing Local school improvement councils. Revises the powers of Local 
School and subdistrict councils with respect to deviations from the uniform per-

vice as a teacher, principal or other professional Board employee for purposes of 
their eligibility for selection to new or vacant teaching position. Revises the required 
content of the System Wide Plan and school improvement plans with respect to 
specified matters, such as the provision of special services to special populations, in-
cluding education services for 4 year olds and reduced class size. Requires public re-
porting, publicizing and public meetings with respect to the development, progress 
and problems in implementing the school improvement plans, revises the manner in 
which school improvement plans are developed, makes Local School and subdistrict 
councils subject to the Open Meeting and Freedom of Information Acts, and re-
quires Local school councils and subdistrict councils to transmit to their school com-
unity an annual report accounting for their financial and programmatic activities. 
Revises provisions governing training and assistance of local school council mem-
bers, and authorizes the Board to provide or contract out training programs for ad-
ministrative personnel and principals with new duties. Provides that the 
System-Wide Educational Reform Goals and Objectives Plan contain criteria for 
evaluating local school and subdistrict council performance, and authorizes the 
Board to impose sanctions and take corrective action if any such council persists in 
noncompliance with system-wide requirements. Includes replacement of school fac-
culty members and school closure as permissible sanctions against probationary 
schools which fail to make adequate progress to correct deficiencies. Provides for

Amends the Civil Administrative Code and the Finance Act. Provides that the rate of interest on State installment contracts to purchase property may not exceed a rate which is 3% over the yield on U.S. Treasury obligations, rather than the bond rate. Eliminates requirement that contracts contain formula concerning equity return to the State on default. Allows title to be taken in the name of a trustee or nominee for the State. Allows the Department of Central Management Services to issue certificates of participation to finance State lease-purchases and installment purchases. Eliminates the definition of "purchase contract for real estate". Effective immediately.

Fiscal Note Act may be applicable.
STATE DEBT IMPACT NOTE

Without an authorization limit, the debt impact of SB-1886 cannot be calculated directly. The new proposed rate of interest limit would permit substantially higher interest rates to be paid on long-term obligations that would not be reflected in statistics on the State's bonded indebtedness. The debt impact of the proposed issuance of certificates of participation (CPOs), based on CMS's FY87 level of equipment lease financings, would be $44.2 million (principal and interest). The State would clearly pay more to finance State agency property and equipment under the proposed COPs than by issuing general obligation bonds of similar maturity. By relying on leases and the proposed COPs, the State would incur substantially higher financing costs in order to keep from using general obligation bonds to purchase capital equipment and real property.

(Ch. 110, new pars. 2A-101 through 2A-114)

Amends the Code of Civil Procedure. Creates a cause of action for restoration of reputation as an alternative to a defamation action for damages for persons who believe their reputations have been damaged by a false statement of fact published by a medium of mass communication. If the plaintiff prevails, he may seek publication of a notice of the Judicial Declaration of Falsity which shall contain factual statements pertaining to the proceedings in which the Judicial Declaration of Falsity was obtained. Provides that an action for restoration of reputation shall be commenced within one year next after the cause of action accrued. Effective immediately.

HOUSE AMENDMENT NO. 1.

Changes the plaintiff’s burden of proof from a preponderance of the evidence to clear and convincing evidence. Provides that a plaintiff who files a complaint for restoration of reputation is barred from ever asserting any other cause of action of any kind and from ever seeking damage based upon statements or conduct of the defendant which are subject of the restoration action. Provides that no action for damages may be filed concurrently with an action for restoration of reputation.

HOUSE AMENDMENT NO. 2.

Provides that the complaint for restoration of reputation must show that the statement referring to the plaintiff is believed by the plaintiff to be materially damaging to the plaintiff.

HOUSE AMENDMENT NO. 3.

Deletes provision which assesses $5,000 to be paid by plaintiff where defendant is a radio or television station which fails to comply with preserving any tape or film which contains the statement at issue in the restoration action.

HOUSE AMENDMENT NO. 4.

Provides that it is an affirmative defense to an action for restoration of reputation that the allegedly false statement referring to the plaintiff was taken from remarks made by an identified candidate for public office who has already filed his petition of candidacy if the statement is an accurate and complete rendition of those remarks or a fair abridgment.
