THIRTY-FIRST ANNUAL REPORT OF THE ILLINOIS STATE BOARD OF DENTAL EXAMINERS.

To His Excellency, Charles S. Deneen, Governor of the State of Illinois:

HONORED SIR—In compliance with the law, I have the honor to present the following Annual Report of the Illinois State Board of Dental Examiners for the year ending December 15, 1912, it being the thirty-first annual report since the passage of the first dental law in this State.

The board has held five sessions during the year 1912. One at Springfield and four in Chicago.

The first meeting was held in Chicago January 22, 1912, for the purpose of amending board rules.

The second meeting was called at Springfield May 16th, for the purpose of outlining the work for the coming examination after the appointment of the new member, Dr. E. F. Hazell of Springfield, Ill.

The third meeting of the board convened in Chicago June 12th, and one hundred fifty-seven applicants presented themselves for examination. One hundred seven successfully passed the examination and were granted licenses to practice in the State of Illinois. Of the fifty who failed to receive licenses, thirty-three passed the theoretical examination, but failed in the practical. There being such a large number of failures in the practical work only, the board decided to hold a special examination August 26th and 27th, for the purpose of giving those who failed in the practical work another test. At the examination held on the above dates, thirty-two candidates presented themselves for examination, of which number twenty-three were successful.

The fifth and last meeting of the board was the regular annual meeting which convened in Chicago November 11th. Forty-one applicants presented themselves for examination and thirty-three successfully passed. The annual election was held, and the following officers were elected for the ensuing year: W. F. Whalen, President; T. A. Broadbent, Secretary-Treasurer.

There are at the present time 4,114 dentists legally licensed to practice in the State of Illinois, about 500 of whom are non-residents of the State.

Since the Dental Act which went into effect July 1, 1909, authorizing reciprocity, we have succeeded in procuring reciprocal contracts with the following states: Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Nebraska, Ohio and Wisconsin. We are at the present time in correspondence with the Pennsylvania board, and are in hopes that we will soon be able to arrange reciprocity with that state.
I herewith submit the following financial report of the board for the year ending December 15, 1912:

SECTION 1. Be it enacted by the People of the State of Illinois represented in the General Assembly, That a board of examiners, to consist of five practicing dentists, to be known as the Illinois State Board of Dental Examiners, is hereby created, whose duty it shall be to carry out the purposes and enforce the provisions of this Act, as hereinafter specified. The members of said board shall be appointed by the Governor, and at the time of their appointment upon said board, must be actual residents of the State and must have been for a period of five years, or more, legally licensed to practice dentistry or dental surgery in this State: Provided, however, that no person shall be eligible to appointment to said board who is in any way connected with or interested in any dental college or dental college or dental department of any institution of learning. The term for which the members of said board shall hold office shall be five years: Provided, that the members of the dental board, in office at time of the passage of this Act, shall be permitted to serve out their respective terms of office for which they were appointed, and until their successors shall be duly appointed. In case of a vacancy occurring on said board, such vacancy shall be filled by the Governor, as herein provided.

§ 2. Said board shall choose one of its members president and one secretary thereof, and it shall meet at least once in each year, and oftener if necessary, in the discretion of the board, and at such times and places as it may deem proper; A majority of the members of said board shall, at all times, constitute a quorum, for the transaction of the business of the board, and the proceedings thereof shall, at all reasonable times, be open to public inspection.

§ 3. No person, unless previously registered or licensed to practice dentistry in this State at the time this Act shall become operative, shall begin the practice of dentistry or dental surgery, or any branches thereof, without first applying for and obtaining a license for such purpose from the Illinois State Board of Dental Examiners. Application shall be made to said board in writing, and shall, in every instance, be accompanied by the examination fee of twenty dollars ($20) together with satisfactory proof that the applicant is of good moral character and twenty-one years of age or over at the time of making the application. Application from a candidate who desires to secure a license from said board to practice dentistry or dental surgery in this State shall be accompanied by satisfactory proof that the applicant so applying for a license has been engaged in the actual, legal and lawful practice of dentistry or dental surgery in some other state or country for five consecutive years just prior to application; or is a graduate of and has a diploma from the faculty of a reputable dental college, school or dental department of a reputable university; or is a graduate of and has a diploma from the faculty of a reputable medical college or medical department of a reputable university, and possesses the necessary qualifi-
cations prescribed by the board. When such application and the accompanying proof are found satisfactory, the board shall notify the applicant to appear before it for examination at a time and place to be fixed by the board. Examination may be made in whole or in part, orally or in writing at the discretion of the board, and shall be of a character as to test the qualifications of the applicant to practice dentistry or dental surgery. All examinations provided for in this Act shall be conducted by the board, which shall provide for a fair and wholly impartial method.

§ 4. Said Board of Dental Examiners shall make rules or regulations to establish a uniform and reasonable standard of educational requirements to be observed by dental schools, colleges or dental department of universities, and said board may determine the reputability of those by reference to their compliance with said rules or regulations.

§ 5. Any person shall be regarded as practicing dentistry or dental surgery within the meaning of this Act, who shall treat, or profess to treat any of the diseases of lesions of human teeth or jaws, or extract teeth, or shall prepare and fill cavities in human teeth, or correct the malposition of teeth, or supply artificial teeth as substitutes for natural teeth: Provided, that nothing in this Act shall be so construed as to prevent regularly licensed physicians or surgeons from extracting teeth: Further, this Act shall not prevent students from performing dental operations under the supervision of competent instructors within a dental school, college or dental department of a university recognized as reputable by the Illinois State Board of Dental Examiners.

§ 6. Any person licensed to practice dentistry or dental surgery in this State by the Illinois State Board of Dental Examiners, as hereinafter provided, shall personally and within ninety days from date of issue, cause such license to be registered with the county clerks of such county or counties in which such person desires to engage in the practice of dentistry or dental surgery, and the county clerks of the several counties of this State shall charge for registering such license a fee of twenty-five cents (25c) for each registration: And it is hereby provided further, that every person who engages in the practice of dentistry or dental surgery in this State shall cause his or her license to be registered with the county clerk before beginning the practice of dentistry in said county, and to be, at all times, displayed in a conspicuous place, in his or her office wherein he or she shall practice such profession, and shall further, whenever requested, exhibit such license to any of the members of the said board or its authorized agent.

§ 7. The board may refuse to issue the license provided for in this Act, or may revoke any license now in force or that shall be hereafter given, if issued to individuals who have, by false or fraudulent representation, obtained or sought to obtain practice or by false or fraudulent representations obtained or sought to obtain money or any other thing of value, or have practiced under names other than their own, or for any other dishonorable conduct. The board, when written charges have been filed with its secretary, and seem sustained by proof, shall fix a time and place for the examination of a person so charged and shall give written notice to the said person of the time and place and furnish him with a copy of the charges, at least twenty days prior to the date fixed for the examination.

§ 8. Any failure, neglect or refusal on the part of any person obtaining a license to practice dentistry or dental surgery from the said board, to register such license with the county clerk of some county in this State, as above directed, within ninety days from the date of issue of the same, shall work a forfeiture of such license, and no license when once forfeited, shall be restored, except upon payment to the said board of the sum of fifteen dollars ($15), for such neglect, failure or refusal to register such license and the surrender of forfeited license.

§ 9. In order to provide the means for carrying out and enforcing the provisions of this Act, the said board shall charge each person applying to it for examination for a license to practice dentistry or dental surgery in this State, an examination fee of twenty dollars (§20), and in addition
Provided, that the secretary of the board, for the purpose of enforcing the
provisions of this Act shall receive a salary to be fixed by the board, instead
of the per diem of ten dollars ($10). All expenses shall be paid from the
fees, fines and penalties received and recovered by the board under the
provisions of this Act: Provided, that no part of said expense shall be paid
out of the State treasury. All moneys received in excess of said per diem
allowance and other expenses herein provided shall be held by the secretary
of the said board as a special fund for meeting expenses of said board, and
said board shall make an annual report of its proceedings to the Governor
by the 15th day of December of each year, together with an account of all
moneys received and disbursed by them pursuant to this Act.

§ 10. Any person filing or attempting to file as his own the diploma or
license of another, or a forged affidavit of identification, or qualification,
shall be deemed guilty of a felony, and upon conviction thereof, shall be
subject to such fine and imprisonment as is made and provided by the
statutes of this State for the crime of forgery.

§ 11. The State Board of Dental Examiners may, in its discretion, issue
a license to practice dentistry or dental surgery without examination to a
legal practitioner of dentistry or dental surgery, who removes to Illinois

or she removes, certifying that he or she is a competent dentist or dental

ILLINOIS STATE BOARD OF DENTAL EXAMINERS

SUPPLEMENTAL REQUIREMENTS AND INSTRUCTIONS GOVERNING THE CLINICAL PROSTHETIC PROCEDURES RELATING TO RULE VI.

In view of recent closer study and improvement in the management and arrangement of the occluding surfaces of artificial teeth, whereby the greatest masticating efficiency can be attained, the board deems it a duty to require of those who are to serve the people of the State a good working knowledge of the most approved methods of construction of artificial dentures.

To these ends and to approximate as nearly as possible the conditions that apply to practical prosthesis, the applicant is required to furnish plaster casts prepared by himself, for a full denture (both upper and lower) made from impressions taken from the same mouth. These to be mounted upon an anatomical articulator capable of registering the condyle paths in each individual case, the bite plates to be in position, and the work continued to the point of readiness for trial in the mouth.

The points or counts considered in grading are as follows:

First. Treatment of the impressions and casts to secure retention.
Second. Selection and general arrangement of the teeth. Occlusion.
Third. Contour or restoration of the features.

Special notice will be taken in the grading, as to the occluding surfaces of bicuspids and molars, whether they are of such form as will grasp, cut and crush food substances effectively; the balancing contacts when lateral and protrusive movements of the mandible are made; and the proportionate size of the teeth selected for the case in hand.

It is obvious that impressions and casts made from dummies or otherwise than from the natural mouth will not fulfill the grade requirements. The board will not give encouragement to half-hearted and perfunctory efforts on the supposition that nearly anything is good enough to pass the applicant.

Good equipment is necessary to attain correct results, hence an up-to-date articulator is an indespensable adjunct in the construction of up-to-date artificial dentures.

Crowns. The applicant will also be required to construct a banded porcelain-faced crown upon the root of an anterior tooth, in the presence of the board.

The grading points are as follows:

First. Preparation of root.
Second. Adaptation of band to root.
Third. Occlusion. Form.
Fourth. Finish.

In the grading, especial notice will be taken of the relation of the band to the gingivae, and to the contour of the lingual surface.

In order to secure something of uniform procedure, it is suggested that the applicant take an impression of his own natural teeth, make plaster cast, cut off a given tooth, adapt and insert the root of an extracted tooth, and complete the case in accordance with the points designated in the grading.

It is further suggested that the applicant supply himself with a goodly number of extracted teeth from which to select a suitable one for his case.

The applicant must furnish all instruments and material for all practical work.
